Our contemporary states that in 1899-1900 alone no fewer than 126 new drugs were put on the market, and it thinks that such an official examination as it proposes might have the effect of moderating the too great zeal in the finding of new drugs displayed by some medical practitioners and chemists. We imagine that most practitioners in this country, who find their letter-boxes stuffed every day with pamphlets and circulars, and little tins and bottles of samples, will be disposed to agree that our eminent German contemporary speaks the words of wisdom. Application of Water in Diabetes. S. BARUCH, M. D. It has long been my custom to insist upon regular and sustained exercise, by which alone muscular glycogenesis can be stimulated. This requires great moral courage...
