But all of these urges in a living democracy should be controlled without being controlled. To achieve this seeming paradox we must have a great national purpose, and unselfish leadership such as could come through a National Council of Scientists. Mr. William Henry Smyth has been in general practice as a consulting engineer since 1879. He is the inventor of many machines and mechanical devices, including a system of raising water by direct explosion on its surface, the device being known as the direct explosion pump. He has been an engineering expert in
