In the grades of both the junior and senior high school the medians of the two forms, when averaged and compared with age norms, are decidedly above the Otis medians for adult intelligence. Results were practically the same for the seventh grade. While the results were not on the whole as pronounced as in the case of the other schools, the evidence is clear that here the Otis standards are also too low. According to the results in the Reading High School (Table VI), nearly 76 percent of the pupils tested show average mental ages at or above the grade in which they are working. Only 24 percent of the pupils tested have intelligence ratings below average; while...
